benefiting **Cook Children's Medical Center** in Fort Worth, Texas

HALO PILLOW COVERING

Halo Pillows are used for premature babies. The picture on the left is the actual halo pillow, while on the right is a picture of a halo pillow covering.

Directions: ***Finished size of*** The Halo Pillow Covering should be roughly a 7 ¼" diameter circle, tapered down to about a 5" wide opening. Please use soft cotton fabric or flannel and try to avoid fleece as this may cause the baby's head to sweat. Cut out two pieces of soft cotton fabric slightly larger than the above dimensions and stitch a ¼" seam around the two pieces except around the opening. Turn right side out and add Velcro to the opening

Thank you!!
